My name is Marc (Markie Brown)

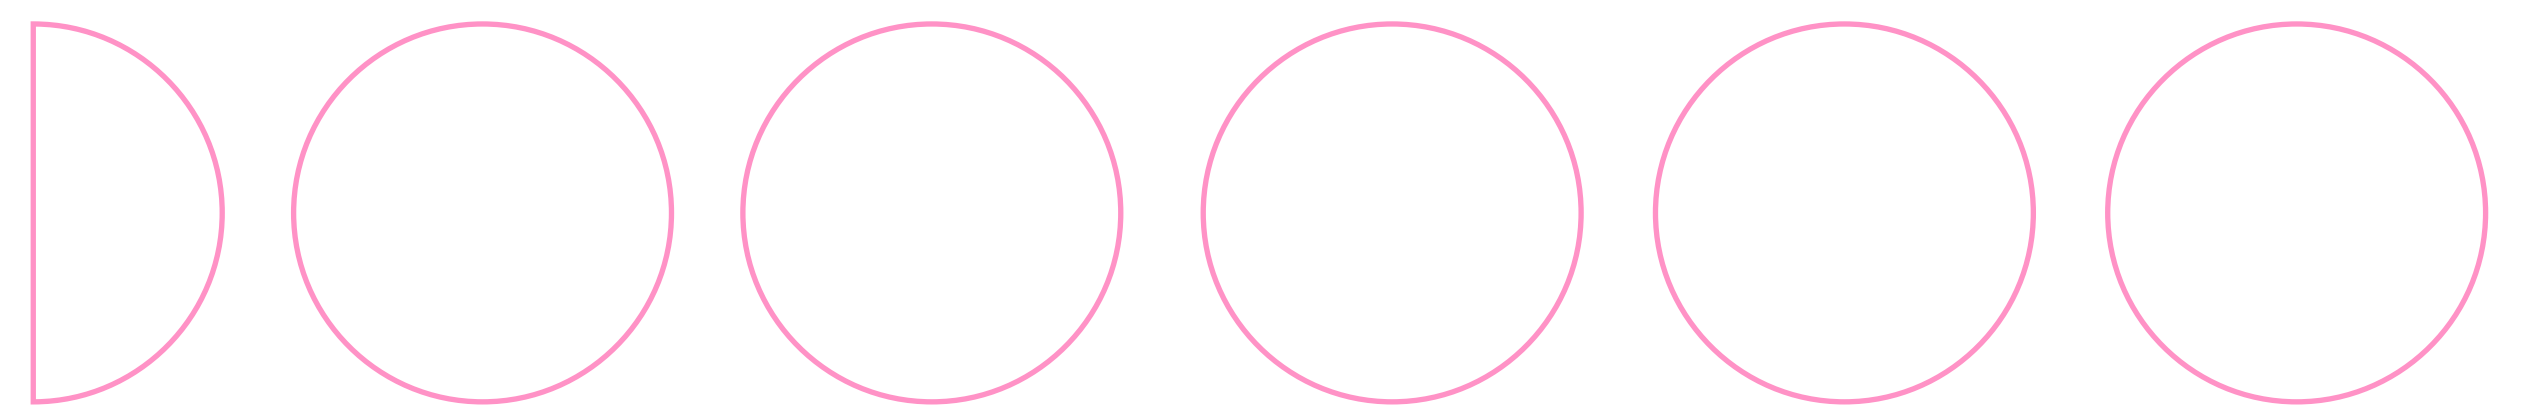

A multidisciplinary artist **born in Barcelona** in 1991. I am a very active designer on Social Media and in the interactive graphic world. I enjoy participating in cultural, activist, social, and solidarity projects.

I am curious about everything related to the artistic world: video, cinema, tattooing, crafts, graphic design, illustration, musical composition and game level design.

I enjoy learning new techniques and functions. I am interested in advertising, the design and sale of products both online and in-person, new technologies, layout, and editorial design.

I mainly focus on **brand creation and the design of original merchandise** for cultural events and professional artists.
